Appendix 1. Examples of Plastic Bags and Films with Incorrect Recyclable Labels Distributed in California in 2021

Common Label Errors on Plastic Bags and Films

1) “100% Recyclable” or other forms of “Recyclable.” Use of the word “recyclable” in any form is not correct because plastic bags are not widely accepted in curbside bins in California or across the U.S. Mixed post-consumer plastic film waste has minimal-to-no market demand or current processing. This text should be eliminated from the bag.

2) “Can be recycled at a participating store” or “Store Dropoff.” There is not a comprehensive store takeback system in California. California law (Cal. Bus. & Prof. Code § 17580 and Cal. Pub. Res. Code § 42355.5) and the federal Green Guides (16 C.F.R. § 260.2) require substantiation for recycling for claims such as this. It is our opinion that this claim is not provable. This text should be eliminated from the bag.

3) Large chasing arrows recycling symbol. The FTC Green Guides only allow small resin identification codes on non-recyclable plastic products in inconspicuous locations. We recommend changing the chasing arrows to a solid triangle and minimizing the size to make it inconspicuous.

These labels will likely cause consumers to place the bag in curbside recycle bins.
